ADA Calculator | EASE / Blue Beam / BIM Downloads

MEET THE TECH BLUE TEAM

James Curl

jamesc@williamssound.com

James brings more than 15 years of experience in the A/V industry -- including digital audio production; network audio system programming; live sound engineering; and engineered A/V system design, installation and project management. Prior to joining Williams Sound, James served as a systems design manager, live sound engineer, recording studio chief production engineer/producer, and signal flow/digital audio specialist at industry-leading A/V technology firms and recording studios.

James received his Bachelor of Music degree from the Berklee College of Music, and has also worked as a recording artist and international touring musician.

Daryl Dankert

daryld@williamssound.com

Daryl brings more than 30 years of experience in the electrical/electronics industries. His career began in the U.S. Navy, achieving the level of Journeyman Electrician after eight years of service. Daryl then joined Williams Sound in 2001 as a Repair Technician. He has since held roles of increasing responsibility in the Product Marketing and Technical Training areas that provided him with extensive hands-on experience with Williams Sound products. His current role as International Technical Training Manager involves education and installation around the world of the entire Williams Sound product line -- including FM, infrared, Digi-Wave, induction loop and Wi-Fi audio streaming.

Mike Griffit

mikeg@williamssound.com

Mike brings more than 30 years of experience in the A/V industry, working with manufacturers, A/V and broadcast integration groups, and consulting firms. During the past eight years, he has focused on technical training, with a repertoire that includes streaming, audio systems and programming. More recently, Mike's been teaching the AV marketplace about such assistive listening technologies as FM, infrared, Wi-Fi and induction loop. Prior to joining Williams Sound, he served as a Product Marketing Specialist, Corporate Training Manager and Regional Applications Specialist at industry-leading A/V technology firms.
