

PFM 360/360 RCH

MOTIVA™ PERSONAL FM LISTENING SYSTEM*

[GO MOBILE WITH PURE, CLEAR WIRELESS LISTENING]

The Motiva Personal FM Listening System delivers superior audio directly to the ear, enhancing sound at home, work, or school – anywhere background noise or distance from the source makes listening difficult. Motiva can be customized to meet an individual's specific hearing needs with selectable compression and adjustable frequency response. Motiva features 16 selectable channels on the 72-76 MHz frequencies and has an operating range of

up to 150 feet. A versatile 3.5mm jack allows for a variety of earphones and headphone options, and is neckloop/telecoil-equipped hearing aid compatible (not included with system). Includes an R36 receiver, which features a sensitive environmental microphone. By turning on the environmental microphone, listeners can hear more of what they want – a grandchild, a classmate, or simply the sounds of nature.
